Gemini Expands Acrylic Capabilities With New East Coast Laser-Cutting Operation

FOR IMMEDIATE RELEASE

Farmville, VA — To meet the growing demand for speedy delivery of flat-cut acrylic products along the East Coast, Gemini Incorporated has added a high-speed laser to its Farmville, Virginia facility to cut letters and logos.

A leading manufacturer of dimensional letters, logos and plaques for the sign industry, Gemini has installed state-of-the art computers paired with custom-designed high-speed 1000W lasers at its Farmville plant to cut the most customized sign work in the industry. Customers up and down the Eastern seaboard can now expect to receive their flat cut acrylic orders in just a few days.

Offering the widest variety of acrylic letters and logos in the industry, Gemini extrudes its own sheets of acrylic in gauges ranging from 1/8" to 1" in 32 standard pigmented colors. Letters can be cut anywhere from 1" to 72" tall. Cutting acrylic with lasers also leaves a superior polished edge that makes the finished product beautiful enough for any application where precision is required.

Gemini is also able to keep its prices down thanks to bulk purchases of materials, nesting of orders and recycling all sheet trim. In addition, all of Gemini's laser-cut letters and logos come with a lifetime guarantee.

For more information about Gemini letters, logos and plaques please call Gemini toll-free at 1-800-538-8377 or visit www.signletters.com.
